## GERMANY ADMITS TORPEDOING OF STEAMER SUSSEX

Stand is Taken that Missile is Fired Under Supposition Channel Vessel is a Warship; Reparation Pledged.

(By Evening Herald Leased Wire) Berlin, May 10. (By wireless to Tuckerton.)—The American reply to the German note was delivered by Ambassador Gerard to the foreign office at 1 o'clock this afternoon.

Washington, May 10.—Secretary Lansing received a message from Ambassador Gerard today giving notice that a new note in the Sussex case had been handed him and was on the way to Washington. It has been indicated that the German government now admits attacking the Sussex, gives notice that the submarine commander responsible has been punished, and promises to make reparation.

SUSSEX TORPEDOED ON THE SUPPOSITION SHE WAS WARSHIP

Amsterdam, Holland, May 10 (by London, 11:10 a.m.—A semi-official dispatch from Berlin says that as a result of the German government's investigation concerning the explosion which damaged the steamship Sussex

it can no longer be doubted that the vessel was torpedoed by a German submarine on the supposition that it was a warship.

The dispatch says the German government has acquainted the United States government with this fact, adding that, in accordance with the note last month, Germany will draw its consequences from the evidence which now has been adduced.

SOUTH AMERICAN PRESS SEEKS GERMAN REPONSE

Buenos Aires, May 9. Notable details of the German note are promulgated to speak of "variations across" after which it attributes the "impassive response of President Wilson to internal political currents which have impeded his action."

The Journal de Commerce, after insisting on the impossibility of neutrals admitting the legality of "the most strenuous German submarine war," declares that it cannot be compared to the blockade of the allies which has sacrificed so innocent life. It adds that "the reply sent by President Wilson will be followed by a continuation of the submarine war unchanged."

To believe that the submarines will modify their action in any manner without the German demand having been satisfied means that the government of the United States will await the first torpedoing to declare a rupture. No person believes that the United states, having proclaimed its great hope across the world, will break the world in painful disillusionment.

MUCH PROMINENCE IS GIVEN AMERICAN NOTE

Paris, May 10 (11:15 a.m.)—In largest prominence is given by the news papers of Paris this morning to the latest American note to Germany, applying to the German communiqué respecting submarine warfare. The American note is spoken of as a masterpiece of diplomacy.

"With courageous firmness and clarity, which is in strong contrast to the pathos with which Wilhelmsstrasse answers its back-draws, President Wilson maintains the position he took up in the previous note," writes Stephen Pinchon, former prime minister in the Petit Journal.

TEXT OF GERMAN NOTE IS MADE PUBLIC TODAY

Washington, May 10.—Germany's new note acknowledging responsibility for destruction of the Sussex, promising reparation and announcing indemnity of the submarine commandant who received safe-ride today at the State Department from Ambassador Gerard.

The text of the note made public today reveals that Germany, while confessing that the submarine commander acted in a thoughtless belief he was saving an armed vessel when he torpedoed the Sussex, nevertheless says he turned his boat around so hurriedly and did not act in accordance with his conscience, so the imperial government has therefore decided that compensation given the United States safe-ride adhered to in this instance.

The note expresses sincere regret regarding the deplorable conduct of the German submarine to pay an adequate indemnity to the British American owners, to give the British government a full account of the damage, and voices a hope that the United States will consider the case settled.

MEXICANS TRY TO GET MILLION ROUNDS OF AMMUNITION ACROSS

(By Evening Herald Leased Wire) Laredo, Tex., May 10. One million pounds of gunpowder which Mexicans attempted to smuggle across the river into Mexico last night was confiscated by U.S. border police. The amount of the contraband was estimated to be \$100,000.

MACHINERY DEALERS MEET IN PITTSBURGH

(By Evening Herald Leased Wire) Pittsburgh, May 10. Meetings of the American Supply and Machinery Association, American Machine and Foundry Co., and the National Supply and Machinery Dealers' association were held yesterday in Pittsburgh.

## MENAU SCHOOL TODAY HOLDING COMMENCEMENT

Dr. David Ross Boyd Principal Speaker at Closing Exercises of Presbyterian Institution North of Town.

The commencement exercises of the Menau school, a Presbyterian institution north of the city, are being held this afternoon, with President David H. Boyd of the university as the principal speaker.

The exercises commenced at 2 o'clock with a band concert. The concert was rendered by the school band, an institution organized only this year, which has made remarkable progress under the direction of Pres. K. King, of this city.

Immediately following the concert came the commencement exercises proper. The graduates, men each delivered an oration and Dr. Boyd made a brief, polished and forcible address, touching on the need of the stars to form a link and uniting the students to serve their best efforts to the state.

The play of the high school department was given last night. It was the ever-popular "Tea-smash" and was rendered in English style.

A number of Albuquerquians went out to the school for the exercises.

The graduation of Alumnae of Africa, Patricia Lopez de Los Cerritos and Mariana Casares of Dawson were given a dinner at a downtown restaurant by Superintendent J. C. Ross at noon today.

## WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood as easily as does the bowel pores.

For every ounce of food and drink taken into the body there is an equal amount of waste matter produced, especially of the bowels. This waste material is eliminated daily, but quickly, thoroughly and completely unless gases and toxins which are absorbed or sucked into the blood stream through the lymph ducts, which should suck out impurities to protect the body.

A simple health measure is to drink before breakfast each day a glass of hot water with a tea-spoonful of linseed oil phenolic emulsion, which is a harmless way to wash the stomach from inside and leave the system free of waste and toxins.

For those who are accustomed to wash themselves, the entire abdomen and rectum before putting more food into the stomach.

A heavier pound of linseed oil phenolic emulsion but very little at the drinking water sufficient to help cleanse the system from inside and leave the system free of waste and toxins.

For those who are accustomed to wash themselves, the entire abdomen and rectum before putting more food into the stomach.

## SWITCHMAN KILLED IN SANTA FE YARD AT BELEN YESTERDAY

Belen, N. M., May 10.—No more was known today than yesterday of the manner in which J. C. Cooper, a switchman, was killed in the yard of the Santa Fe yesterday.

Cooper's body was found in such a position and under such circumstances that it appeared he had been killed by a switch engine breaking down on a set of cars behind which he stepped to make a coupling. It appeared he had been killed about 11 o'clock in the morning.

The body was found by Engine Foreman Earl Knobell under the wheels of one of the cars, with one foot cut off the neck broken and the skull crushed. Cooper had apparently been dead about ten minutes.

The body was taken to Albuquerque by Knobell and carried to his home at Carlisle. He leaves a wife who was visiting in El Paso the time of the accident.

Members of the Valencia division of the Brotherhood of Locomotive Engineers, of which the dead man was a member, arranged with Santa Fe officials to ship the remains to the family home at Carlisle yesterday.

TRIAL OF ROCHAS AND RODRIGUEZ UNDER WAY

Trial of Charles A. Rochas and Al Rodriguez, accused of helping James Madina murder Jose N. Chaves, the San Juan mine-keeper, proceeded in the district court today. Testimony of the prosecution in the case has been pretty much along the same line as that given by Rodriguez, except that in this latter case a confession to the defendant was held.

Rochas and Rodriguez have steadfastly denied that they had anything what-ever to do with the crime.

## EIGHTH CAVALRY REACHES BORDER AT RAIDED TOWN

Detachment Sent Into Big Bend Country for Protection of Settlers Arrives at Station; Sub-bases Set Up.

(By Evening Herald Leased Wire) Marathon, Tex., May 10.—The Eighth Cavalry detachment from Fort Davis, sent into the Big Bend district for protection against new bandits, was at the border today. Automobiles returning from the neighborhood of Beaufiful said they passed the Eighth just 3 miles from town.

M. Kline's ranch is only a few miles from town, where the heavy toll of the last raid was exacted, and it is 10 miles from Marathon Springs.

Three troops of the Fourteenth cavalry descended from Fort Clark camped at Henderson Ranch last night. From there Col. Frederick W. Sibley rushed up to Beaufiful to take command of the forces under Major George T. Hartman.

Sub-bases are being established at Henderson and Miller ranches.

## TO DARKEN HAIR APPLY SAGE TEA

A few applications of Sage Tea and Sulphur brings back its vigor, color, gloss and youthfulness.

Common sage tea is good, however, tea is better, as it contains a larger amount of tannin. Make the Sage Tea strong enough to become a poultice to the hair, though it becomes too strong to be used as a hair wash. Mix the Sage Tea with Sulphur, resinous roots, and a small amount of soap to act as a detergent. Wash hair with this mixture, then rinse with water.

Water is a strong hair wash, but is not suitable for it tends to extract all the natural oil and vitamins.

On days of long hair wash with Woods of Rain or Sulfur soap. This is a good hair wash, but is not suitable for it tends to extract all the natural oil and vitamins. Use a hair wash containing a large amount of soap, as it tends to remove the natural oil and vitamins.

This hair wash is a delightful tea mixture and is good for the hair.

A hair wash containing a large amount of soap, as it tends to remove the natural oil and vitamins.

When you wake up drink glass of hot water.

NEW ADMINISTRATION AT CLAYTON TAKES UP ITS RESPONSIBILITIES

(By Evening Herald Leased Wire) Cleveland, May 10.—The new board of trustees and T. E. Ross selected members by a majority of nine, three votes will take the reins of administration in their hands at the beginning of the new term.

Many improvements in educational affairs are planned by the administration. One feature of which will be the extension of classes to improving the heat and electric light and water facilities.

It is believed that the cost of energy will be cut in half by the contemplated addition to the central power plant, bringing the cost of electricity to only two cents per kilowatt hour.

As a side effect, the new building will be heated by natural gas.

The new building will accommodate 1,000 students.

MORTUARY

John Mann's Funeral.

Funeral services for John Mann were held at 11 o'clock this afternoon at St. Francis Chapel, Rev. E. P. Schmid pastor of the Knights and Daughters of the Eucharist.

Brooks conducted the funeral services at the grave. Members of the old family were present. Mr. Mann was a member of the Lodge 672.

Jose Gonzales.

Jose Gonzales, 28 years old, died yesterday night at his home, 21 South Mesilla. There was no cause of death.

His wife died three months ago. His body will be kept at the funeral home.
